## Family Relationship Chart

## Chart Instructions

1. The box marked CA on the chart in the upper left-hand corner is the common ancestor of two people.
2. Boxes with numbers 0-10 represent how many generations from the common ancestor (0)
3. Identify the relationship of the first person to the common ancestor, e.g., child, grandchild, 8th great grandchild, etc. Find that box on the top row.
4. Identify the relationship of the second person to the common ancestor, e.g., grandchild, great grandchild, 3rd great grandchild, etc. Find that box in the lefthand column.
5. Follow the column straight down from the top row and follow the row straight across from the left-hand column. The relationship of the second person to the first person will be the box where the two lines meet.

## Chart Abbreviations:

-CA Common Ancestor
-C Child
-S Sibling (Brother/Sister)

- N Niece/Nephew
- GC Grandchild
- GGC Great Grandchild
-GN Grand Niece/Nephew
- GGN Great Grand Niece/Nephew
- \#C Cousin Relationship,
- Ex: 1C = First Cousin
- \#R \# of times removed,
- Ex: $4 R=4$ times removed
